

COPIED OF 0755007

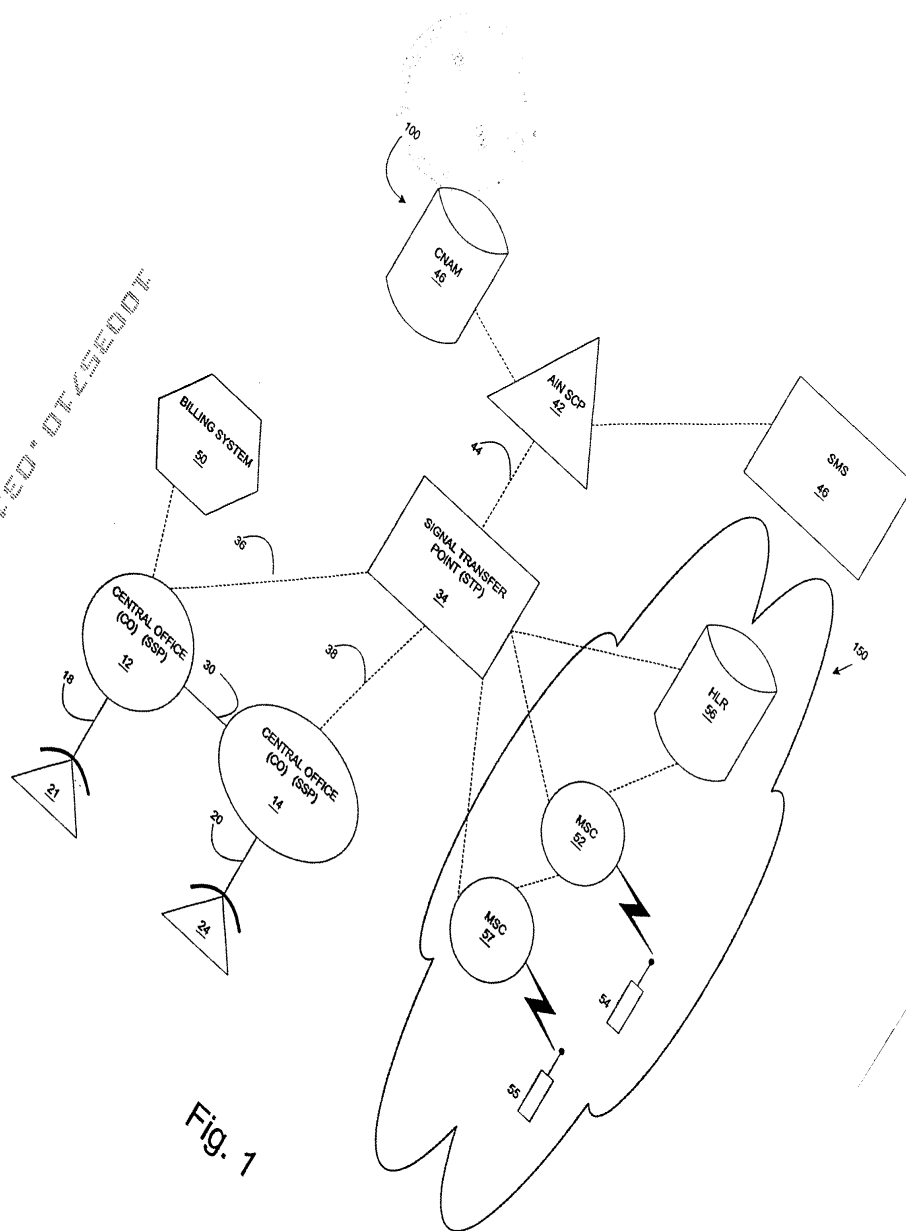

Fig. 1

The diagram illustrates a device 200, which appears to be a handheld scanner or a similar input device. It features a cylindrical body with a circular lens or sensor array at the front, labeled 210. On the side of the device is a rectangular control panel or display, labeled 220. This panel contains a 'Yes' button, labeled 235, and a 'Yes' label, labeled 230. A circular inset, labeled 215, provides a magnified view of the control panel area, showing the 'Yes' button and label in more detail. The entire device is labeled 200.
